

2/2 Ways Solenoid valve serie MP163

- High reliability, long life, the valve do not require a minimum operating pressure
- Electric connector specification : ISO 4400 , IP65
- Working medium: Air
- Working differential pressure : air: 0-0,5 Bar
- Max. pressure : 2 Bar
- Ambient temperature : -20 to + 50 °C
- working temperature : -25 to + 90 °C
- connection ports G1/2"
- kv factor = 21 L/min
- aluminium alloy body
- Seal : NBR
- Normal close
- Direct acting
- Voltage tolerance +- 10%
- Standard Voltage 230 V 50 Hz , available on request 12 VDC, 24 VDC, 24 VAC
- Power consumption 9 Watt
- Valve can work at any operation position
